**Subject:** Microsoft Settlement

To Whom it May Concern:

I feel the proposed settlement in the Microsoft case is a poor one. Microsoft in the past has shown an aggressive desire to work around any and all structural remedies. Any person of intelligence and imagination can find many ways to work around the structures given in the proposed settlement and continue to pursue anti competitive behavior. This is why Microsoft is so agreeable to the proposed terms.

Microsoft has been found guilty of engaging in monopolistic behavior. Any solution must not only prevent this behavior from occurring in the future, it must also not allow Microsoft to benefit from it's prior actions. Any less than this flies in the face of long term public interest.

Sincerely,

W. Andrew N. Jaquysh
